COMP537 IUI
Term Project
Final Presentation

Volkan Cirik

Personal Font & Signature Generator

Idea:

1 User gives signatures

2 The system learns the style of the author

3 The system can generate signature with author's style

The Flow of the System

- You can clone it on github :

https://github.com/wolet/signature-generation

- Step (f), discrimination is missing

Step (a)

Step (b)

Step (c)

Step (d)

Step (e)

Step (f)

Yes/No

An example
